Ksenija, please give me some times Thursday 28th or Monday 2nd and we can set up a time. I will also have my Exec VP in charge of national installs Bruce Cheskin on the call to answer any detailed questions. On the field visit issue, the only thing we have somewhat close to you in the time frame you discussed is an install in the Philly area late May/ early June. Will that work. I will have more options when we get into heart of install season in late June/ July and August.

Rom,

Another thing to look from me, if you are available, is a set of proposed times for a detailed call on field installation and maintenance. I know we talked to you a bit in the meeting with the synthetic turf industry, but since that meeting covered a lot of different topics, it would be beneficial to dedicate some distinct time to the installation and maintenance practices, too. Would you be available for such a call?

Best,

Ksenija

Subject: Field installation

Hi Rom,

Thank you for your visit to EPA on March 22. I wanted to follow up with you on your invitation to observe a field installation. Would you happen to have an installation planned for the second half of May? Something more local to Washington DC is preferable to us, but this really depends on Sprinturf's installation schedules.

Looking forward to hearing back from you.

Best regards,

Ksenija
